

Viva Exam – Art & Design– HT 1

Your **Viva exam** supports you in developing your confidence, self-expression and curricular understanding.

It does so by improving your **oracy**.

When a university student writes a thesis (their final paper or exam), they have to defend what they have written whilst their professors ask questions. This is often referred to as a **Viva exam**.

Viva is short for **Viva Voce**, this is the Latin for ‘**with living voice**’, or in other words **spoken** not written.

Across this Half Term you will prepare for a **Viva exam** on the curricular area we are studying, this will be **instead** of your End of Term exam.

Your teacher will support you in **preparing** by **suggesting** what you may speak about, **providing** materials to support you, **checking** in on your planning and progress and giving you **feedback** after you have spoken so that you know what you have done well and what you will need to improve, next time.

This pack contains the basic materials and guidance you need to prepare for your **Viva exam**.

‘Viva’ Exam – Art & Design – Key Stage 3 – Half Term 1

Student Name and class:

Expectations:

- To present an **oral critical appreciation** on a **single piece of artwork** selected from three options set by the teacher.
- To speak **unaided and without interruption**, for one minute and thirty seconds.
- To **accept and respond** to at least one unknown question following your speech.

Resources Permitted:

- Use this guide, as well as the suggested research sources, to craft your presentation and create a set of notes to practice and deliver your **Viva exam**.
- You are permitted to use these cue card notes and scaffolded written structures when delivering your exam, however, higher marks will be received for speaking without aides.

Marking and Grading:

As with your end of term assessment, your **Viva exam** will be given a 0-9 grade. Students should always aim to meet or exceed their target grade. However, there is no need to feel bad if you don't, all this means is that you are learning and making progress!

Your total marks will be multiplied by five to produce a percentage, just like you get in your other end of term exams. The teacher will then convert this percentage so that your termly report can show a grade in this area. **Viva exams** are marked in four categories; please see the mark scheme below:

Overview:

During this **Viva exam** you will need to plan and prepare to **speak on a piece of artwork** set by the teacher. This will be in the form of a **critical appreciation presentation**, using the structure provided for you. You will also need to answer at least one question (which you won't know in advance) from the audience, in other words, your peers and teacher.

1. **Stage 1 – Research and investigate the artwork. Use the notes and guidance in this pack.**
2. **Stage 2 – Plan your critical appreciation speech and condense this plan into notes.**
3. **Stage 3 – Practice your speech, learn to do it without notes and with greater confidence.**
4. **Stage 4 – Share your speech with parents, peers and your teacher, for feedback.**
5. **Stage 5 – Deliver your speech to the class and your teacher.**

Stage 1

When researching and investigating the artwork, you should:

- Read all the information given to you by your teacher.
- Learn the KEY TERMS of the main subject and themes of the artwork, and their meanings.
- Learn all about the artist so that you can explain who they are.
- Consider the CONTEXT of WHEN, HOW and WHY the artwork was made.

Stage 2

When planning your critical appreciation speech, you should consider:

- A hook, how will you begin your speech so as to captivate your audience?
- Rhetorical devices. How will you use rhetorical questions, metaphor, hyperbole, analogy and other devices in your speech?
- Precision and timing: what will the purpose of your speech, its key theme, be? How will you capture this in the time you have?

Stage 3

When practicing your speech, you should:

- Practice repeatedly those parts you are weakest in. Do not waste time practicing again and again, what you already know.
- Watch and listen to yourself, for instance speak out loud, use a mirror, record yourself. You will need to be comfortable with the sound of your own voice and the value your opinion carries.
- Focus on pace, rhythm, modulation and tone, as much as the content of your speaking. Become comfortable pausing throughout your speech, rather than saying 'um'.

Stage 4

When sharing your speech, you should consider:

- What are the initial reactions of others? Do they seem more interested in some parts of the speech than others?
- What questions are people asking you afterwards? Could these be questions that are likely to be asked of you on the day?
- What feedback does your audience give you on the use of your voice, your body language and communication style? Are you confident and present enough?

Stage 5

When delivering your speech, you should:

- Have notes with you in case you get stuck but attempt to go by memory as much as possible.
- Position yourself in the room, standing, at the front, use the space and consider walking around it as you speak.
- Focus on the faces of your audience, look for signs as to whether they are engaged or excited, consider whether you need to modulate your tone, increase volume, or lean move heavily on a rhetorical device.
