

Viva Exam – Yr.9 History– HT 2.2

Your Viva exam supports you in developing your confidence, self-expression and curricular understanding. It does so by improving your oracy.

When a university student writes a thesis (their final paper or exam), they must defend what they have written whilst their professors ask questions. This is often referred to as a Viva exam.

Viva is short for Viva Voce, this is the Latin for ‘with living voice’, or in other words spoken not written.

Across this Half Term you will prepare for a Viva exam on the curricular area we are studying, this will be instead of your End of Term exam.

Your teacher will support you in preparing by suggesting what you may speak about, providing materials to support you, checking in on your planning and progress and giving you feedback after you have spoken so that you know what you have done well and what you will need to improve, next time.

This pack contains the basic materials and guidance you will need, to prepare for your Viva exam.

Overview:

During this Viva you will need to plan and prepare to speak on one of the topics assigned to you in your group. You will also need to answer one question (which you won't know in advance) from the audience, in other words, your peers and teacher.

1. **Stage 1 – Research your area of expertise.**
2. **Stage 2 – Plan your speech and condense this plan into notes. You can have 1 Cue card to use in your presentation.**
3. **Stage 3 – Practise your speech, learn to do it without notes and with greater confidence.**
4. **Stage 4 – Collaborate with your group in class; share your research and plan the Teach-it lesson activity.**
5. **Stage 5 – Deliver your speech to the class and your teacher.**

Stage 1

Research your area of expertise:

- You have been given 1 sheet of contextual information as a starting point. You should read, understand and summarise the 10 key points of information that you think are important enough to share with the class.
- Consider any information that a) you do not understand AND b) you would like to know a little more about. Use the internet, books in school or the library to help you to feel confident about this topic.

Stage 2

Plan your speech and condense this into notes. You can have 1 Cue card to use in your presentation:

- Create a clear structure with an introduction, main points and conclusion that answers your given question.
- You only have 2 minutes to speak- therefore carefully select your information- ask yourself 'does the rest of the class need to know this'?
- Complete your cue card with prompts, key words and dates that will help you in your presentation.

Stage 3

Practise your speech, learn to do it without notes and with greater confidence:

- Watch and listen to yourself, for instance speak out loud, use a mirror, record yourself, you will need to be comfortable with the sound of your own voice and the value your opinion carries.
- Focus on pace, rhythm, modulation and tone, as much as the content of your speaking, become comfortable pausing throughout your speech, rather than saying 'um'.
- Ask a friend or family member to hear your speech and in the 2 minutes using a timer.

Stage 4

Collaborate with your group in class; share your research and plan the Teach-it lesson activity:

- You will have 2 preparation lessons to collaborate with your other group members.
- Lesson 1: Share your research with your group. This is a great opportunity to share the key information that you intend to share with the class in your viva. Ask for feedback from your peers. In return, ask them questions in relation to their area of study. Brainstorm and agree on a 5 minute activity that you can deliver as a team. Your teacher will provide some ideas and examples in the lesson. Decide who will make the powerpoint slide to include the map and timeline of your given Kingdom. This will need to be shared with your teacher prior to the presentation lesson.
- Lesson 2: Plan and create your lesson activity. You will need to consider who in your group will deliver which aspect of the activity e.g instructions, handing out materials, taking feedback. Take your usual lessons at Eastbrook as inspiration!
- If you are asking the class to complete a worksheet- you will need to have this completed and ready for copying by the end of this lesson.

Stage 5

When delivering your speech, you should:

- Have your cue card with you in case you get stuck.
- Position yourself in the room, standing, at the front, use the space project your voice.
- Make eye contact with the people in the room, look for signs as to whether they are engaged or excited, consider whether you need to modulate your tone, increase volume, or lean move heavily on a rhetorical device.
- Once your speech ends, be prepared to answer one unseen question from your teacher, using what you know from class.
